DETAILED ACTION

This is a non-final Office Action for application number 10/071,100 Radio Bin Spacer filed on 8/23/04. Claims 1-17 are pending. This non-final Action is in response to applicant's Appeal Brief reply dated 3/10/08. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 1 and 10 recite, "the interior dimensions allowing mounting of a standard sized radio directly therein".

The specification does not adequately describe as to what size is a standard sized radio.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1-17 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 10 recite, "the interior dimensions allowing mounting of a standard sized radio directly therein". It is unclear what is meant by a standard sized radio.

Response to Arguments

The rejection under 102(b) in view of Tanaka is hereby withdrawn. The applicant must fully describe what is meant by a standard sized radio.
